Located in the historic city of Redlands, California, They have over 130 years of combined expertise. Each doctor believes that they were created to love their patients, families, and those around them. Since 1985, we have been helping our patients recover from injuries caused by auto accidents. We have spent several decades building expertise and relationships within the local healthcare community. This gives our injured patients access to several specialized evaluations including MRI, Nerve conduction test, brain imaging, concussion testing, pain management, orthopedic referrals, acupuncture, Neurospine referrals, plastic surgery referrals, physical therapy referrals, urgent care, and neurology.
